

Before joining XM as an employee 5 1/2 years ago, I listened to FM like everyone else did. However after I learned about XM and what it had to offer the regular consumer, I certainly never questioned myself again whether or not I would listen to FM again! I only listen to XM! I cringe when I have to listen to FM and the undersized selection that I have to listen to. Since XM has aired traffic and weather, I have saved myself a lot of time and aggravation in planning my weekends and now I can't live without it!!!!

Anyone planning a trip to drive their car should listen to XM traffic & weather - you won't be dissapointed!!!
